

# EARN UP TO \$10,000 FOR YOUR SCHOOL

## TECHNICAL SCHOOL GRANT PROGRAM

The Technical School Grant Program offers grant money to educational institutions that are willing and able to expand their curriculum to include propane-specific material with hands-on resources. The Propane Education and Research Council (PERC) will provide up to \$10,000 to selected applicants. Please note that funding is limited. Each school is eligible for one grant.

## WHO CAN APPLY

Educational institutions and career centers (votech schools, community colleges, etc.) in the United States that are willing and able to expand their curriculum to include propane-specific material and hands-on resources for their students.

## HOW IT WORKS

1. Complete the online application.
2. Complete pre-program paperwork.
3. Acquire the required items.
4. Teach!
5. Attend an in-person Train the Trainer event.
6. Complete post-program paperwork.
7. Teach again next year, and the year after that!

## HOW TO APPLY

Visit [www.propane.com/TechSchoolGrant](http://www.propane.com/TechSchoolGrant) to learn more, determine eligibility, and apply.

## IMPORTANT DATES

Application period: August 1 - November 30, 2022

Selections announced via email: December 2022

Instructional period: January - December 2023

Train the Trainer: Summer 2023

# PROGRAM DETAILS

The *HVAC and Plumber Technical Training* course was developed to support an 80-hour curriculum, diving deeper into hands-on training in 15 different modules. Here are the items you are required to obtain:

1. Pressure measuring devices.
2. A liquid leak detector system.
3. Gas pipe, tubing and fitting samples.
4. A propane hydrometer and supply source cylinder with proper hose and fittings for liquid transfer outside of a building.
5. A natural draft propane appliance.
6. A category III propane appliance.
7. A category IV propane appliance.
8. Venting components.

Items provided by PERC:

9. A propane regulator test and demo training board with a propane regulator cutaway.
10. *HVAC and Plumber Technical Training* curriculum with instructor tools.

Propane-Specific Curriculum

Professional Tools & Equipment

Propane Appliances
